ABOUT US

Practice for Girls and Women Career Development (PGWOCADE) is Non-government organization working to advance girls and women right to education, it was established in 2016 by 5 members and registered in 2018 under Non- Governmental Organization Act 24 of 2002 with registration No. 00NGO/0009617. PGWOCADE foundation has been able to reach young women, girls and community through working with partners.

Our organization structure compose of board of directors, executive director, Department managers and staffs. Our board is, supported by 5 Community working Committees (Board of directors).

VISION

To have society which integrate women and girls in national development agenda for sustainable livelihood.

MISSION

To sustainable empower young girls, women, through capacity building in realization for their ultimate goals and promote sustainable community health.

TARGET GROUP

Our target group is young girls between ages of 13 – 28 year

Our core activities

- EDUCATION AND GIRL CHILD PROTECTION
- SEXUAL REPRODUCTIVE HEALTH AND RIGHTS
- COMMUNITY HEALTH
- CAREERS AND ECONOMIC EMPOWERMENT

OUR REACH

We work in Tanzania main land, currently we work in four districts of Rukwa region

Msichana

Salama project

Msichana Salama is a project which aims at keeping girls in school during their menstrual period to scale their school time stay and increase their performance, by providing education and ensuring sanitary pads, water, sanitation and waste disposal are available and accessible by girls.

This project was implemented in 7 schools kisumba, lukangao, Mazwi, msanzi, Sumbawanga, kizwite and Matai. 2 districts of Rukwa region, Kalambo and Sumbawanga district .

Girls from lukangao secondary school learning how to create reusable sanitary pads

In this project girls were trained on safe menstruation ie hygiene during their periods and menstrual health care and learn how to create reusable sanitary pads using local material khanga, kitenge and towel. This training is 3 days for each school in 6 months. This project impacted 3713 girls from 7 secondary schools .

Semeni training girls at lukangao

Chungu project

Chungu is a project which I am at building feminism leadership in young girls between the age 13- 25 . This is the program which provide girl capacity building with education in self confidence self, self determination and safe care to prevent them from gender based violence and allow them to take part in decision making.

50 girls from Sumbawanga are engaged in this program and meet one every month to learn and discuss different topics on leadership and self built. This program as impacted 100 girls from 10 wards in Sumbawanga town
